

Littelfuse MEGA 500A 32V Bolt On Fuse 0298500.ZXH 0298 298 Series

Our Product Introduction

for more products please visit us on lk-thermistor.com

Basic Information

- Place of Origin: China
- Brand Name: LINKUN
- Certification: ROHS
- Model Number: MEGA

Product Specification

- Rated Current: 40A-500A
- Rated Voltage: 32V DC
- Material: Bakelite+Copper
- Color: Black
- Type: MEGA Bakelite Auto Fuse
- Usage: Automotive
- Model: Middle Stud Fuse
- Size: MEGA
- Packing: PE Bag
- High Light: Bakelite Bolt Down Fuse, MEGA Bolt Down Fuse, 500A Automotive Fuse
- Highlight: 32V Bolt On Fuse, 0298500.ZXH Bolt On Fuse

Product Description

Product Description:

Black Bakelite Bolt Down Type Car ANM Automotive Auto High Current 200A 400A 500A 300 AMP Fuse

Specifications

1. Rated Current: 40A to 500A;
2. Interrupting Rating: 2000A@32VDC;
3. Voltage Rating: 32VDC;
4. Operating Temperature Range: -40C ~ 125C;
5. Terminals: Copper/Zn alloy.
6. Housing Material: PA66/PPA(33% or 35%GF);
7. Mounting torque: 12- 18Nm W/M8;

8. Standard: IS08820-5/UL248 special purpose fuses;

9. "*" not mentioned in ISO standards;

10. "**" is only for short circuit protector.

Description

ANM Bakelite Fuse is designed for high current circuit protection up to 500A. ANM Fuse also provides time delay characteristics. This fuse is ideal for battery and alternator protection application and other heavy gauge cables requiring ultra-high current protection.

Features

- * Reliable Circuit Protection
- * High Conductivity Plating
- * Maximum Current Transfer
- * 40-500 Amp - 5pcs/Pack
- * MEGA style fuses

AUTO FUSE

Car Fuse: Keep Your Vehicle Running Safely and Efficiently

Are you looking for a reliable and high-quality car fuse to protect your vehicle's electrical system? Look no further than our Car Fuse, designed for superior performance and durability.

Product Specifications:

Voltage Rating: 32 Volts

Standards: According to SAE J1888

Shape: Blade Type

Metal: Zinc Alloy

Breaking Capacity: Low

Our Car Fuse is specifically designed to meet the needs of today's modern vehicles. With a voltage rating of 32 Volts, it is suitable for a wide range of automotive applications. And with its low breaking capacity, it provides reliable protection for your vehicle's electrical system.

Key Features and Benefits:

150A Automotive Micro Fuses

MTA 5A 10A 20A 40A Automotive Micro Fuses

High Temperature Resistance Standard

Get Best Price

5A-30A ATA Car Micro 2 Blade Fuse

Nylon PA66 Housing Long Leg

High Quality Automotive Micro Blade Fuse

32V 150A

Our Car Fuse is available in a variety of sizes and configurations to meet the specific needs of your vehicle. Whether you need a 5A, 10A, 20A, or 40A fuse, we have you covered. And with its high temperature resistance standard, you can trust that our fuse will perform even in the most extreme conditions.

The nylon PA66 housing with long legs provides added protection and stability for the fuse, ensuring it stays in place and does its job effectively. And with its high quality zinc alloy metal construction, our Car Fuse is built to last and withstand the rigors of daily use.

So don't wait until it's too late. Protect your vehicle's electrical system with our reliable and high-quality Car Fuse. Contact us today to get

the best price and ensure your vehicle stays running safely and efficiently for years to come.

Features:

Product Name: Car Fuse
Break Speed: Fast
Terminal Type: Blade
Rated Voltage: 32V DC
Rated Current: 20A-120A
Standards: According To SAE J1888
5A-30A ATA Car Micro 2 Blade Fuse Nylon PA66 Housing Long Leg
Car Blade 40A Automotive Fuse Middle Medium Standard Size ATU ATO ATC ATY
Low Profile Mini Blade Fuse
Blade Mounting 1A-40A 58V DC ATT Auto Blade Fuse
40A Automotive Fuse Car Low Profile Blade Fuse

Technical Parameters:

Key Features	Specifications
Rated Current	20A-120A
Voltage Rating	32 Volts
Shape	Blade Type
Size	29.3x34.1x8.8mm
Usage	Automotive
Metal	Zinc Alloy
Terminal Type	Blade
Standards	According To SAE J1888
Body	PC/PA
Break Speed	Fast
Product Name	Car Fuse
Compatible Current	5A, 10A, 15A, 20A, 30A, 40A
Compatible Voltage	32V DC
LED Indicator	Yes
Fuse Type	ATO, ATC
Terminal Type	3 Terminal Tiny Blade Legs
Usage	Automotive
Protection Type	Automotive

Applications:

CAR FUSE - LINKUN

Product Description

The Car Fuse by LINKUN is a high-quality automotive fuse designed for various types of vehicles. With its blade type shape, it is perfect for modern cars, trucks, and SUVs. Manufactured in China, it follows the standards set by SAE J1888 and is made of durable PC/PA material.

Usage

Automotive: This fuse is specifically designed for use in vehicles, making it an essential product for any car owner or mechanic.

Features

Brand Name: LINKUN
Model Number: ATM
Place of Origin: China
Shape: Blade Type
Standards: According To SAE J1888
Body: PC/PA
Rated Current: 20A-120A
Available Sizes

The Car Fuse by LINKUN is available in various sizes to suit different needs. Some of the sizes include:

5A-30A: This size is perfect for smaller vehicles with low electrical demands.

40A: This is a standard size that is suitable for most vehicles.

150A: This is a high-rated fuse that is ideal for larger vehicles with high electrical demands.

Get Best Price for Your Customized Car Fuse:

At LINKUN, we understand the importance of customized solutions for our customers. That's why we offer a wide range of options for our Car Fuse, including:

Customized branding with your company logo

Choice of fuse size and amp rating

Customized packaging options

Ability to add LED indicator for easy identification

High temperature resistance for use in extreme conditions

And more!

Our team of experts will work closely with you to ensure that your customized Car Fuse meets your specific needs and requirements. Contact us today to get the best price for your customized Car Fuse!

Packing and Shipping:

Car Fuse Packaging and Shipping

Our Car Fuse comes in a sturdy and compact packaging, ensuring the safety and protection of the product during shipping. The packaging is designed to be easy to open and handle, making it convenient for customers to access the product.

Each Car Fuse is individually wrapped and labeled with its specifications, including the fuse rating, type, and quantity. This makes it easy for customers to identify the product and its intended use.

Our packaging also includes instructions for installation and usage, making it user-friendly for both professional and DIY car owners.

For shipping, we use reliable and efficient carriers to ensure timely delivery of the product to our customers. Our packaging is designed to withstand the rigors of transportation and protect the product from any damage.

We also offer bulk packaging options for customers who require a larger quantity of Car Fuses. These bulk packages are securely packed and labeled for easy identification.

At Car Fuse, we prioritize the safety and satisfaction of our customers. That's why we take extra care in packaging and shipping our products to ensure they arrive in perfect condition.

FAQ:

Q: What is the brand name of this car fuse?

A: The brand name is LINKUN.

Q: What is the model number of this car fuse?

A: The model number is ATM.

Q: Where is this car fuse made?

A: It is made in China.

Q: What is the voltage rating of this car fuse?

A: The voltage rating is 32V.

Q: Is this car fuse compatible with all types of vehicles?

A: Yes, it is compatible with most types of vehicles.

Q: What should I do if the car fuse keeps blowing?

A: Check for any possible short circuits or overloading in the circuit and replace the fuse with a new one of the same rating.
