

10*85 Ceramic High Voltage Fuse 1.5KVDC 1A-32A Photovoltaic New Energy

Our Product Introduction

for more products please visit us on lk-thermistor.com

Basic Information

- Place of Origin: China DongGuang
- Brand Name: LinKun
- Certification: RoHS
- Model Number: 10*85 Series
- Minimum Order Quantity: 50PCS
- Price: Negotiation
- Packaging Details: PE bag, Bulk
- Delivery Time: 5-7 days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union
- Supply Ability: 100,000 pieces/month

Product Specification

- Fast Acting: Ceramics Tube
- Standard: American Standard
- Rated Voltage: 1500V AC
- Operating Temperature: -55°C To +125°C
- Voltage Characteristics: High Pressure
- Use: Solar System, Panels, Light
- End Caps: Nickel-plated Brass
- Main Characteristics: Miniature Cartridge Fuse; Fast-Acting(F)
- Rated Current: 1A To 32A
- High Light: 0*85 Ceramic Fuse High Voltage Fuse 1.5KV 1A-60A
- Highlight: **Ceramic High Voltage Fuse, 1A High Voltage Fuse, Photovoltaic High Voltage Fuse**

Product Description

Product Description:

Product Parameters

Product name: Photovoltaic DC fuse

Product number: 1085g

Product size: 10*85mm

Rated voltage: 1500VDC

Rated current: 1A-32A

Breaking capacity: 30KA

CURRENT FUSE

FUSE LINK AND FUSE BASE

Miniature Cartridge Fuse

The Miniature Cartridge Fuse is a compact and tiny size fuse designed to provide protection for electronic circuits in various applications, such as household appliances, communication equipment, and automotive electronics. It is suitable for use in both residential and industrial settings.

Product Features

Tiny Size: The Miniature Cartridge Fuse is designed to be extremely small and compact, making it easy to fit into tight spaces in

electronic devices.

High Rated Voltage: With a rated voltage of 250V AC, this fuse is capable of handling high voltage levels, providing reliable protection for your electronic circuits.

Axial Leads: The tin-plated copper wires used as axial leads in this fuse ensure excellent electrical conductivity, making it a reliable choice for your electronic devices.

Fast Acting: The Miniature Cartridge Fuse is designed to be fast acting, meaning it will quickly open the circuit and protect your electronic device from overcurrent or short circuits.

Wide Range of Rated Currents: This fuse is available in a wide range of rated currents, including 250mA-16A, 12.5A-16A, and 1A-15A, to meet the varying needs of different electronic applications.

High Operating Temperature: The Miniature Cartridge Fuse is capable of operating in a wide temperature range, from -55°C to +125°C, ensuring its reliability in extreme conditions.

Applications

The Tiny Cartridge Fuse is suitable for use in a variety of electronic devices, including:

Household appliances such as refrigerators, microwaves, and washing machines.

Communication equipment such as routers, modems, and telephones.

Automotive electronics such as car stereos, GPS systems, and power windows.

It can also be used in industrial equipment, control panels, and other electronic devices that require reliable and compact protection.

Conclusion

The Miniature Cartridge Fuse is a top choice for those looking for a compact and reliable fuse for their electronic devices. With its tiny size, high voltage rating, fast acting capability, and wide range of rated currents, it is an ideal solution for various applications. Its ability to operate in high temperatures also makes it a dependable choice for use in extreme conditions. Choose the Miniature Cartridge Fuse to ensure the safety and protection of your electronic circuits.

Features:

Product Name: Miniature Cartridge Fuse

Standard: IEC 60127-2/II; GB/T9364.7

Storage Conditions: +10°C To +60°C

Main Characteristics: Miniature Cartridge Fuse; Fast-Acting(F)

Operating Temperature: -55°C To +125°C

Rated Voltage: 250V AC

Cartridge Style Fuse

Micro Cartridge Fuse

Small Fuse Cartridge

Technical Parameters:

Parameter	Value
Product Name	Tiny Cartridge Fuse
Storage Conditions	+10°C To +60°C
Axial Leads	Tin-plated Copper Wires
Operating Temperature	-55°C To +125°C
Rated Current	250mA-16A; 12.5A-16A; 1A-15A
Fast Acting	Glass Tube
Standard	IEC 60127-2/II; GB/T9364.7
End Caps	Nickel-plated Brass
Main Characteristics	Miniature Cartridge Fuse; Fast-Acting(F)
Rated Voltage	250V AC

Applications:

Miniature Cartridge Fuse for Electrical Safety and Overload Protection

Brand Name: LinKun

Model Number: 521 527 511 Series

Place of Origin: China DongGuang

Storage Conditions: +10°C To +60°C

End Caps: Nickel-plated Brass

Fast Acting: Glass Tube

Rated Current: 250mA-16A; 12.5A-16A; 1A-15A

Rated Voltage: 250V AC

LinKun Miniature Cartridge Fuse is a tiny size fuse that is designed to provide compact and reliable protection for various electronic devices. It is an essential component for ensuring electrical safety and preventing overload in circuits.

Application in Automotive Electronics

With its small size and high performance, LinKun Miniature Cartridge Fuse is widely used in automotive electronics. It is commonly used in cars, motorcycles, and other vehicles to protect the electrical systems from damage caused by overcurrent or short circuits. Its fast-acting nature ensures quick response and prevents any potential hazards.

Application in Household Appliances

Household appliances such as refrigerators, washing machines, and air conditioners also rely on LinKun Miniature Cartridge Fuse for circuit protection. These appliances have complex electrical systems that are vulnerable to power surges and overloads. The tiny size and compact design of the fuse make it easy to integrate into the appliances without taking up much space.

Other Applications

In addition to automotive electronics and household appliances, LinKun Miniature Cartridge Fuse can also be used in various electronic devices such as power supplies, chargers, and LED lighting. It is suitable for both industrial and residential use, providing reliable protection for circuits and electrical equipment.

Overall, LinKun Miniature Cartridge Fuse is a versatile and essential component for ensuring electrical safety and preventing damage to electronic devices. Its tiny size, fast-acting nature, and high performance make it a popular choice in various industries. With strict quality control and advanced technology, LinKun is committed to providing durable and reliable fuses for all your circuit protection needs.

Customization:

LinKun Miniature Cartridge Fuse Customized Service

Brand Name: LinKun

Model Number: 521 527 511 Series

Place of Origin: China DongGuang

Storage Conditions: +10°C To +60°C

Standard: IEC 60127-2/II; GB/T9364.7

Axial Leads: Tin-plated Copper Wires

Main Characteristics: Compact Cartridge Fuse; Mini Cable Fuse; Fast-Acting(F)

End Caps: Nickel-plated Brass

Packing and Shipping:

Miniature Cartridge Fuse Packaging and Shipping

Our Miniature Cartridge Fuse is carefully packaged and shipped to ensure safe delivery to our customers. Here is the breakdown of our packaging and shipping process:

Packaging

The Miniature Cartridge Fuse is first placed in a protective plastic bag to prevent any damage during transit.

Next, the bagged fuse is placed in a sturdy cardboard box with cushioning material to provide extra protection.

The box is then sealed with high-quality tape to ensure the fuse stays in place during shipping.

Finally, the box is labeled with the product name, quantity, and any other necessary information for easy identification.

Shipping

We offer various shipping options to meet our customers' needs, including standard, expedited, and express shipping.

For standard shipping, we use reliable carriers and provide tracking information for our customers to track their order.

Expedited shipping is available for urgent orders, and we guarantee delivery within a specified time frame.

For express shipping, we use expedited carriers to ensure the fastest delivery possible.

Our team takes great care in packaging and shipping our Miniature Cartridge Fuses to guarantee their safe arrival. We are committed to providing our customers with a seamless and hassle-free ordering experience.

FAQ:

Q: What is the brand name of this product?

A: The brand name is LinKun.

Q: What are the model numbers for this product?

A: The model numbers are 521, 527, and 511 series.

Q: Where is this product made?

A: This product is made in China DongGuang.

Q: What is the function of this product?

A: This product is a miniature cartridge fuse used for circuit protection.

Q: Is this product suitable for automotive use?

A: Yes, this product is suitable for automotive use.
